Camp Douglas Says "Thank You!"

Camp Douglas is a small church camp on British Columbia's Sunshine Coast. In the 2007-8 camping season, our major fund raising goal was to replace all of our old mattresses. With the help of A-Z foam, we were able to reach that goal, and now every bed in our little camp has a high-quality foam mattress in a disease-proof cover.

The campers now have a much easier time getting to sleep, which gives them more energy to use participating in camp activities. This also greatly reduces the stress level of our Cabin Leaders: At night it's easier to get the campers to bed, and during the day it's easier to get them involved. Cabin clean-up is easier, too, as the new mattresses just require a quick wipe-down.

Getting new mattresses has genuinely improved the quality of life here at Camp Douglas. We appreciate the care and attention given by A-Z Foam to our project, their fast and friendly service, and their quality mattresses.

Thank you for all your help!

Gordi Whitelaw
